LAMIMA

# Luxurious Phinisi Charm

Lamima is a charming Indonesian two-masted phinisi with the opulent luxuries of modern yacht design. The vision of esteemed yacht designer Marcelo Penna, who wanted to create a vessel that merged traditional Indonesian hospitality with superyacht luxury, Lamima is a nautical masterpiece built with charter in mind.

The 2014 phinisi yacht was built by Ara and Sulawesi who skilfully set about constructing Lamima as what would become the world's largest wooden sailing yacht. The result is a 65.2m vessel like no other. Lamima sails the waters of Southeast Asia, a kaleidoscope of exotic sights, offering charter clients tastes and experiences that will capture your imagination and thrill your senses.
